SUMMARY

Experienced Java Backend Developer in Spring Boot and Hibernate. Strong fundamentals and rapid learning ability. Ready to contribute expertise for successful project outcomes.

EXPERIENCE

Java Backend Developer

AGS Health

July 2022 - Present, Ahemdabad, Gujarat, India

- Over 2+ years of experience in building robust and scalable back-end solutions using Spring Boot and Hibernate, with solid expertise in relational databases like MySQL.
- Proficient in version control with Git, experienced in Python for data analysis and workflow automation, and foundational understanding of CI/CD processes for code integration and deployment.
- Familiar with AWS services, including EC2, S3, SQS, and CodeCommit, with a solid grasp of core infrastructure services and basic cloud computing principles.

PROJECTS

Computer Assisted Coding (CAC)

AGS Health Pvt. Ltd. • January 2023 - Present

- Engineered RESTful services within a microservices architecture using Spring framework, facilitating seamless communication and scalability.
- Orchestrated microservices architecture using Spring Boot, enabling modular development and independent deployment.
- Spearheaded the development of an automated code recommendation system, streamlining medical coding processes, and optimizing data management across microservices using Spring REST, JPA (Hibernate), and caching mechanisms.

Kinder Garden Website - Management Site

Personal Project • github.com/Faizan2901/nmpc-services • August 2024 - August 2024

- Designed and implemented a microservices-based Kindergarten Management System using Spring Boot, enhancing scalability and maintainability across authentication, user management, and dashboard services.
- Integrated Spring Security with JWT-based authentication to secure user access and implemented role-based access control, ensuring robust and customizable security across the application.
- Developed a user-friendly interface with Thymeleaf, focusing on child-friendly design elements and seamless interaction between microservices via RESTful APIs.

QuizApp

Personal Project • December 2023 - January 2024

- Developed a application using Spring Boot with a microservices architecture, ensuring scalability and modularity.
- Implemented MySQL as the primary database, with Eureka for service registration and OpenFeign for seamless microservice communication.
- Enabled administrators to create quizzes by category and provided users with real-time quiz participation and scoring functionality.

EDUCATION

B.Tech | Computer Engineering

Sardar Vallabhbhai Patel Institute of Technology • Aanand, Gujarat, India • 2023 • 8.95

Higher School Certificate

M.E.S Science Concept School • Vadodara, Gujarat, India • 2019 • 7.6

Secondary School Certificate

Sayaji Boys High School • Vadodara, Gujarat, India • 2017 • 7.9

COURSEWORK

Spring 6, Spring Boot 3 and Microservices

Udemy • 2024 • Java, Microservices, Spring Boot, Thymleaf

- Gained knowledge of building microservices using Spring boot with JPA and Spring Security, Spring REST, Spring MVC, Spring Cloud with in hand project.

INVOLVEMENT

Star Performer

Ahemdabad, Gujarat, India • AGS Health Pvt Ltd. • October 2022 - February 2023

- Recognized as a Star Performer for Q4 of FY 2022-23.

SKILLS

Programming Languages:	Java, Python, JavaScript
Server side technologies:	Microservices, Spring Boot, Hibernate
Databases:	MySQL, MongoDB
Version control system:	Git & Git-hub, E-Git
Cloud System:	AWS(basics) S3, SQS, CodeCommit, EC2
Programming Skills:	Data Structures and Algorithms
Coding Platform :	Leetcode, 5 Rank at Hackerrank(Java)
